

HAE Alphabet Review

Week 1

Test your HAE alphabet knowledge! Match the words with the meanings.

- | | |
|-----------------------|---|
| 1. _____ Blood Cell | a. A scientific look at your blood to try to find out what is making you sick. |
| 2. _____ Blood Test | b. A protein in your blood that helps to stop swelling. If you don't have enough of it, or it doesn't work right, you probably have HAE. |
| 3. _____ C1 Inhibitor | c. Naming the cause of your illness, usually by a doctor or medical professional, by understanding your symptoms and through medical testing. |
| 4. _____ Bradykinin | d. Cells normally found circulating in your blood. |
| 5. _____ Diagnosis | e. A part of your blood that can cause HAE symptoms like swelling. |
