

HAE Alphabet Review

Week 3

Test your HAE alphabet knowledge! Match the words with the meanings.

1. _____ HAE Day
 - a. Most swelling is caused by allergies, but HAE causes a different kind of swelling. HAE makes you swell because there is an important protein missing in your body.
2. _____ Hereditary
 - b. A record of your life experiences. Many HAE patients use this to track HAE attacks and write about what it can be like living with HAE.
3. _____ Hereditary Angioedema
 - c. One way that people can get medication. A doctor, a nurse, or your parent puts a needle in your vein under your skin, and, after the medication is in, the needle comes out.
4. _____ Intravenous
 - d. This means something, like eye color or a disease, that can be passed on from a parent to a child.
5. _____ Journal
 - e. May 16 is a day when people around the world focus on HAE and tell others about it.
